OBJECTIVE

Motivated Computer Science graduate seeking an entry-level Software Developer role, with a strong foundation in programming, problem-solving, and web technologies. Passionate about building scalable applications, learning modern tech stacks, and applying theoretical knowledge to real-world projects. Eager to contribute to a dynamic development team while continuously improving technical and professional skills.

EDUCATION

GMR Institute of Technology — BTech in Computer Science and Engineering	2021 – 2025
CGPA: 7.9 / 10	
Relevant Coursework: Programming, Web Technologies, DevOps, Cloud Technologies	
Sri Prathibha Junior College — MPC	2018 – 2020
CGPA: 9.09 / 10	
Relevant Coursework: Mathematics, Physics, Chemistry, English	
Amara Jyothi High School — SSC	2017 – 2018
CGPA: 9.8 / 10	
Relevant Coursework: Mathematics, Science, Social Studies, English	

SKILLS

Languages:	Python, Java
Web Development:	HTML, CSS
Database:	MySQL
Tools:	Git, GitHub, VS Code, Docker, Terraform
Cloud:	AWS (EC2, S3, EBS)
Soft Skills:	Communication, Team Collaboration, Leadership, Problem Solving

PROJECTS

Deploying a Web Application using DevOps Tools

DevOps Internship Project – Nlite Asia Pvt Ltd

Worked on deploying and managing a web application using cloud and DevOps tools. Implemented CI/CD pipelines for automated build and deployment. Provisioned infrastructure using Infrastructure as Code and managed application containers for consistent environments.

- Tools Used: AWS (EC2, S3, EBS), Docker, Git, Terraform

AI-Powered Alzheimer's Care System (CAREBOND)

College Project – IEEE Published Research Paper

Built an AI-based solution to support Alzheimer's patients by integrating facial recognition (MTCNN + FaceNet), voice-enabled medication reminders, and real-time GPS tracking. Designed to improve patient safety and automate daily assistance tasks using deep learning models.

- Tools Used: Python, OpenCV, TensorFlow, Machine Learning, GPS APIs, Django, SQLite

CERTIFICATIONS

- | | |
|------------------------------------|-------------------------------|
| • Cloud Computing – NPTEL | • Core Java – CTTC |
| • Learning with Python – edX | • DevOps – Nlite Asia Pvt Ltd |
| • Programming in Python – Coursera | |

ACHIEVEMENTS

- **Silver Medal**
Awarded Silver Medal for scoring 9.8 CGPA in SSC (10th Grade), Amara Jyothi High School – recognised for Academic Excellence.
- **Runners-Up – Badminton League**
Represented GMR Institute of Technology in inter-college badminton tournament and finished as Runners-Up.
- **IEEE Publication**
Co-authored and published a research paper on AI-Powered Alzheimer's Care System as an undergraduate student.
